# The Earth Collection

The Earth Collection coatings are high-end decoration finishes that enhance the beauty and timelessness of the natural effects of lime. They meet the highest standards of sustainability, presenting excellent environmental and health benefits.

Thanks to their formula based on 100% artisanal lime, the products absorb CO<sub>2</sub>\* and have excellent breathability. Made with Graphenstone Technology for greater resistance and durability.

Discover our selection of colours and textures inspired by the Earth.

\*The CO<sub>2</sub> absorption occurs during the first 28-30 days after applying the product.
