YIELD	5 Kg/m <sup>2</sup> (2-3 mm)
DRYING	24-48H (Between Coats) 4 Días (Total Drying) 7 Días (Pedestrian traffic)
FINISH	Smooth
COLOURS	The Colours of the Earth

Modena is a rendering mortar for exterior and interior of natural air lime with graphene technology. Ideal in building, rehabilitation and restoration of historic buildings. Creates an entirely mineral and highly breathable support. Due to its technical properties, it can be treated as a continuous material allowing you to obtain the same finish on both vertical and horizontal surfaces.

This product is served in bi-material format, having to mix it to obtain the final product. The pigmentation is presented in Toner of 250ml (solid pigment) offered in 16 colours "The Colours of the Earth".
